HSING CHAU INDUSTRIAL CO., LTD.

## INTRODUCTION

Hsing Chau Industrial Co., Ltd. "HCI", a company based in Taiwan providing high performance Networking & Telecommunication Structured Cabling System Solution.

Most of the products carrying our own patents and were tested by latest instruments, such like HP8753ES Network Analyzer following by ANSI/TIA/EIA-568-B, CENELEC EN 50173-1 and ISO/IEC 11801 2<sup>nd</sup> those current international standards.

## SALES BREAK-DOWN

## CORPORATE MILESTONE

- 1975 Hsing Chau Industrial Co., Ltd. was established. Produced traditional telephone accessories.
- 1982 Produced modular telephone accessories.
- 1989 Emphasized to the Data and LAN networking products development.
- 1992 Produced the Category 5 products according to the ANSI/TIA/EIA-568-A standard.
- 1993 Got the structure patent of Keystone Jack from U.S.A.
- 1999 Started to research and develop Category 6 (Class E) products.
- 2000 Produced the Category 5e products according to the ANSI/TIA/EIA-568-B standard. Established Mainland China manufacture site in Ningbo.
- 2001 Introduce the Optical Fiber products, such as SC, ST, MT-RJ, LC...etc. patch cord assembly to datacom market.
- 2002 Produced the Category 6 products according to the ANSI/TIA/EIA-568-B.2-1 standard.
- 2003 Obtained the SGS Certificate of ISO 9001:2000. Certificate Number: [TW01/00647QA](#)
- 2005 Obtained the 3P certificate of compliance for Category 6 connecting hardware.  
Joint venture with Telegaertner as Telegaertner-HCI Taiwan Inc.  
Introduce the 10GBASE-T solution according to ANSI/TIA/EIA-568-B.2-10 draft 2.0 standard.  
Implement RoHS requirement into the production process.
- 2006 Obtained the UL certificate of compliance for Category 6 connecting hardware.

## QUALITY ASSURANCE OBJECTIVE

Quality Policy: **Totally Customer Satisfy Service.**

Quality Target: **Continually Quality Improvement.**

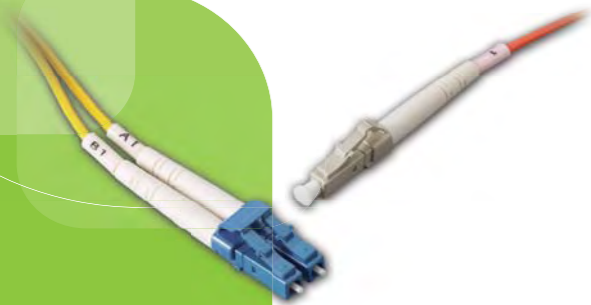

Quality Assurance: **SGS ISO 9001: 2000 Certification.**

# PRODUCT OPTICAL FIBER.

## OPTICAL FIBER

An optical fiber (or fibre) is a transparent thin fiber, usually made of glass or plastic, for transmitting light. Fiber optics is the branch of science and engineering concerned with such optical fibers.

Optical fibers are commonly used in telecommunication systems, as well as in illumination, sensors, and imaging optics.

# MAJOR PRODUCT

## TWISTED-PAIR

Twisted-pair cabling is a common form of wiring in which two conductors are wound around each other for the purposes of canceling out electromagnetic interference which can cause crosstalk. The number of twists per meter make up part of the specification for a given type of cable. The greater the number of twists, the more crosstalk is reduced.

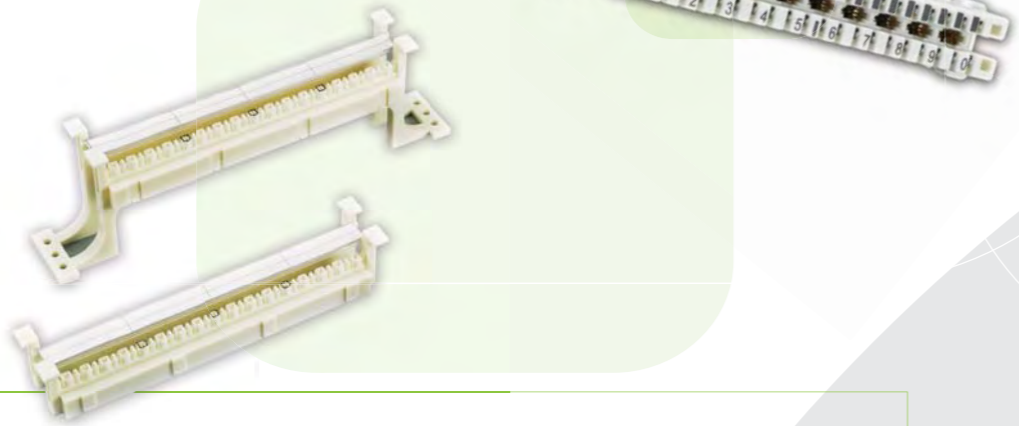

PAIR

# TWISTED

# Private Branch eXchange

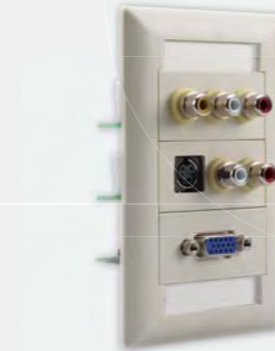

## PBX

A Private Branch eXchange (also called PBX or Private Business eXchange) is a telephone exchange that is owned by a private business, as opposed to one owned by a common carrier or by a telephone company.

# MAJOR PRODUCT MULTIMEDIA

Multimedia is the use of several different media to convey information (text, audio, graphics, animation, video, and interactivity). As the information is presented in various formats, multimedia enhances user experience and makes it easier and faster to grasp information. Presenting information in various formats is nothing new, but multimedia generally implies presenting information in various digital formats.

# MAJOR PRODUCT MULTIMEDIA

## OEM & ODM: Why HCI?

- Total Solution, from design, development to production at the best Price and fast turn around Time.
- Founded in 1975 and over 25 years experience in OEM/ODM projects.
- Technology Leading in Telecommunication Structured Cabling System in Asia.
- Proven high product quality, certified by UL, ETL, & 3P.
